v-JAYS

Powerful, Dynamic and Lightweight

Don't be deceived by the sleek, lightweight and portable design of v-JAYS. Because, while tweaking the speakers for the v-JAYS we realized we were about to unleash a monster. These are the hardest hitting pair of headphones you'll have ever heard

Pure Music, Pure Fun

The v-JAYS are made to let you enjoy your music as much as possible. The speakers are designed to create superior bass impact without overwhelming the other frequencies keeping all the small details you often miss with other headphones. It's time to remind yourself what you love about your music. Whether you're into heavy rock, electronic or plain singer songwriter music - You'll be feet tappin' in no time!

Lightweight

The robust and foldable v-JAYS weigh in at tiny 59 grams (2.08 oz) making them one of the lightest headphones you can find in this genre. This is portable, high performance sound at mid-end price.
